This is a public school, which is situated in a beautiful green garden on the periphery of the town, in a rural district called Krasna.

Primary School nr 7 is a typical community school and has an atmosphere characteristic of such places, having extensive links with parents, regional organizations and local authorities. A lot of parents actively help teachers to organize social occasions at school and in the local community.

Children can go out to breathe the fresh air every break when the weather is good.

This is a logo of our school on the left. The picture is based on the real flower, which petals are green. The Cieszynians say that the seeds of this original plant were brought to Cieszyn by one of the Swedish soldiers who besieged the town during the Thirty Years' War.

Many different clubs operate in the school, providing additional opportunities for children who want to improve their skills and abilities, and fulfill their dreams. There are the following clubs: musical, artistic, theatrical and sporting and many others.
